FROM THE DESK OF TRUSTEES

Shri Mohanbhai Gosrani

Computer education has a pivotal role to play in the Information and Technical development of any country. Under the leadership of Oshwal Education Trust, CZMG BCA has headed for a better futuristic horizon in computer education. Knowledge, ability and competence are the core values that our education requires today. At CZMG - BCA we understand and implement the same. We desire to endow students with the qualities that make them formidable candidates for the job. We are glad that our students have responded well to our positive gesture.

We have always emphasized and will emphasize on employable talent. We understand the corporate requirements during the global turmoil and accordingly we groom them to be able to handle the pressure and excel. They have accepted and realized that there is no alternative to BCA in modern day companies and as a result, in past also, we have been getting good placements for our students in reputed organizations. We are having very dedicated and qualified staff. The knowledge is imparted through problem based learning and computer-assisted instruction and regular updating as per ever changing field of Computer and Information Technology. Education is more student –driven rather than traditional, preachy and lecture-oriented. Today when Government is heavily burdened with the task of funding higher education and want to build skilled India, self-financed institutions serve as a great antidote.

We heartily welcome you to this center of academic brilliance and assure you that it will make a qualitative and quantitative variation in your life and career. We look forward to establish a strong bond with you.

Shri Mohanbhai Gosrani
Trustee & Chairman-Management Committee-OET
